BUSINESSFORWARD FOUNDATION

"

Severe weather causes energy blackouts that disrupt our clients' business. Our revenue is dependent on energy savings and if energy isn't flowing, our clients cannot conduct business and neither of us can generate revenue. Additionally, on extremely hot days many of our clients shut down operations to avoid peak demand charges, but this is also disruptive to productivity, worker safety, and revenue. "

WHAT OUR NETWORK IS SAYING:

SEVERE WEATHER

DISRUPTS SUPPLY CHAINS AND HURTS COMPETITIVE ADVANTAGES

GOOD JOBS

DISTRIBUTED CLEAN ENERGY MEANS GOOD JOBS WHERE WE NEED THEM

MARKET FORCES

THE GLOBAL ENERGY RACE IS OVER: RENEWABLES WON

BUY LOCAL IN-STATE RENEWABLE PRODUCTION SHOULD REPLACE FOSSIL FUEL IMPORTS

ECONOMIC COMPETITIVENESS THE U.S. IS FALLING BEHIND OUR GLOBAL COMPETITORS

SUSTAINABLE BANKING BANKS SHOULD STOP RUSHING LOANS TO FOSSIL FUEL COMPANIES
