

To Senator Raphael Warnock and Senator Jon Ossoff,

On behalf of the below organizations, we write in strong support of H.R. 1/S. 1, the For the People Act. This transformational democracy reform package would help return power to everyday American families and amplify the voices of communities that have historically been marginalized in our democracy.

For far too long, special interests, wealthy donors, and vote suppressors have dominated our politics and attempted to silence the voices of everyday Americans, especially in Black and Brown communities. The For the People Act would help shift power away from bad actors and transfer it to “we the people.”

The 2020 election has underscored the urgent need for transformational democracy reform. Across the nation, Americans experienced unprecedented voter suppression, historic levels of dark money spent to drown out the voices of everyday Americans, and rampant ethical abuses. After this election, the anti-democratic SB202 was passed by the Georgia State Legislature, causing additional suppression and obstruction. One bill, the For the People Act, addresses many of these problems. Therefore, we are urging Congress to make this pro-voter, anti-corruption legislation a first priority in the 117th Congress.

Common-sense reforms in the For the People Act, most of which are deeply popular across the political spectrum and have passed in many states and localities, aim to accomplish three overarching goals: (1) protecting and strengthening the sacred right to vote, (2) ending the dominance of big money in politics, and (3) implementing anti-corruption, pro-ethics measures to clean up government.

Many of the critical issues that our nation faces -- ensuring quality, affordable health care, creating good paying jobs, combating climate change, and achieving racial justice, to name just a few -- cannot be fully solved until we fix our broken democracy. Wealthy special interests have too strong of a grip on the status quo, and we need to first unlock this stranglehold that they have on our political system.

We, the below organizations, thank you for cosponsoring S. 1, the For the People Act, and urge you to fix the filibuster and ensure the For the People Act is passed in the Senate and is put on President Biden’s desk.

Sincerely,
